PROJECTS

Portfolio — *a collection of mini-projects*

React/Node.js page hosted on Vercell features a variety of MVP's, old projects; from simple playable piano to N8N chatbot. Try it yourself!

EXPERIENCE

Marketing Startup, Ukraine — *Co-founder*

MONTH 2020 - FEBRUARY 2022

Me and my former professor, a PhD in marketing, created our own marketing company. We have successfully improved brand identities for private companies and led political campaigns.

VOLUNTEERING

U4U, Europe — *Regional Volunteer*

FEBRUARY 2022 - FEBRUARY 2023

After my forced move to Europe due to the war in Ukraine I was invited to work as a volunteer. My responsibility was to gather related information for refugees in Italy and write guidelines on how to adapt to the new country.

EDUCATION

Austin Community College, US — *Associate in Computer Science*

JANUARY 2024 - DECEMBER 2025

To further advance my qualifications I studied Computer Science. How to apply my skills better through analytical and software tools. From calculus to art appreciation. And deepening my understanding of American culture.

Kyiv University of Culture, Ukraine — *Bachelor of Journalism, audio/visual and radio art.*

SEPTEMBER 2017 - JULY 2020

Place where I learnt the essentials of media communications. The most valuable skill I got is solid expertise in the marketing domain.

SKILLS

Software Development – Python, Javascript.

AI Automation – N8N, Custom MCP.

FrontEnd Development – React + Next.js

Data Processing – Pandas, BigQuery, R, Excel.

AWARDS

NOI Hackathon victory. December 2023. Won a hackathon by creating an app for logistics business to increase workers engagement.

ACC honours program. January 2025. Joined ACC honours program via extensive support from the faculty and excellent academic standing.

Austin AI Alliance. August 2025. Received an award as a participant and was a data-team lead for the event organizers.

LANGUAGES

English, Italian, Ukrainian, Russian.

Basic proficiency in Chinese, German and French.
